

FAB Nature Camps

Kendrick's Park
Lyndhurst, ON
Camp Themes 2025

July 2nd-July 4th

This is a 3 day camp

Turtle Mania: What has armor but is not a knight, snaps but is not a twig, and is always at home? If you guessed TURTLES, you are all set for this week at camp. Did you know that 7 out of 8 species of Ontario turtles are at risk? This week at camp, you will discover why this is and be inspired to take conservation action to help turn the tide for our local turtle friends. Did you know that turtles are in the same "Class" as snakes and lizards - and they all have a hard time sitting in their seats! Join us for a week of fun with our reptile neighbours - silly jokes are completely FREE!

Guest Mentor:

July 7th-11th

Imagine, Invent, Inspire: Join us for a fun filled week where you get to be the teachers. Nature is a great place to use your imagination. What can you turn a stick into? A bow and arrow, a wand, a walking stick? The possibilities are endless. We are excited to see what inventions you can come up with using all of nature's loose parts; and we can't wait to teach you about some of the coolest, most helpful and bizarre inventions from around the world using the FABulous gifts from Mother Nature.

Guest Mentor:

July 14th-18th

Mythbusters: Fact or fiction... it's up to you to decide. Decode commonly known myths surrounding insects, birds, plants, environmental protection, and animals. What is true? What is false? Prepare to be mystified and uncover the Nature Wonders of the World!

Guest Mentor:

July 21st-25th

Strange-Opoly: Did you see that? You will have to be here this week to believe it. The animals we will be searching for are strange to say the least. Here is a challenge to get you ready. Look up an axolotl to see how bizarre this week will get. Come and help your teammates collect as many strange creatures as you can to win the game of Strange-Opoly.

Guest Mentor:

July 28th-August 1st

Earthly Extremes: “The Blue Plant”, this wonderful and magical place that we call home. Learn how the earth was born, how it moves, why the winds howl, why volcanoes erupt, and how the earth is constantly changing. Know our place among the stars and learn how to protect the world that’s ours! We will explore the changes that come with wild weather and maybe we will even get rained on together.

Guest Mentor:

August 5th-8th

*****This is a 4 day camp*****

Live in the Landscape: Go out on a limb and look under your shoe, for plants bursting with flowers, or speckled with dew. Just when you see only green plants in sight, you might just discover a plant that is white! Or maybe while painting a leaf from a tree, you notice an insect that’s munching with glee! Then bust out a field guide and give a loud cheer as you learn what grows in the Biosphere.

Guest Mentor:

August 11th-15th

Backpack the Biosphere: Water bottle? Packed. Snacks? Already eaten. Tent? We’ve got you covered. Come grow your camping skills in a week of backpacking practice in the Biosphere. You’ll try out longer hikes, have plenty of picnics, and learn how to stay safe and comfortable in the great outdoors. We’ll help boost your camping confidence and you’ll be wild about backpacking in no time.

Guest Mentor:

August 18th-22nd

WildCRAFT: Welcome to the Frontenac Arch Biosphere WildCRAFT Adventure. Let’s put your outdoor skills to the test, as you navigate through group challenges and the forest, to survive the “Wilderwoods” of the Biosphere. Adventure awaits you around every corner. Be sure to keep your eyes and ears open and watch out for the Wilderwoods beasts. Only the best potions and the strongest shelters will keep them at bay. The WildCRAFT Adventure takes many of the things that you love about your favourite video games and transforms them into an epic outdoor adventure with all of your camp friends. This week will be full of exciting and inspiring activities that the kids will love - shelter building, tool work, scavenging, nature crafting, potion making, and imaginative play.
